What's New in Calf Housing?

Harold House, M.Sc., P.Eng., DairyLogix

Calf housing has seen much change and innovation in the last few years. Based on practical applications and real life experience, Harold will present information on some of the latest options and developments in this area.

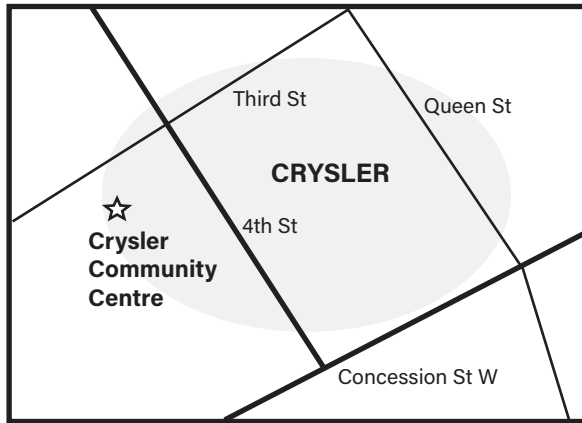

Do Dry-Off Procedures Need a Change on Your Farm?

Dr. Ann Godkin, Veterinarian

Management of the modern high-producing dairy cow is in constant evolution. One area that is often overlooked is Dry-off protocols and procedures. Dr. Godkin will present and discuss some of the latest research and practices on this topic.
